Introduction

Introduction

WWF Greece works to conserve Greece's valuable natural heritage, as an integral part of the Mediterranean, and to promote a future where humans live in harmony with nature. Its mission is achieved through its conservation programme, which is currently structured under two main **long-term goals**: (A) biodiversity conservation and (B) footprint reduction.

Its strategy is made up of a series of activities and projects that respond to five main aspirations:

1. To safeguard the rich biodiversity of the country by putting emphasis on the operation of the protected areas' system, the study and conservation of some of the country's key ecosystems and species, and the mitigation of important and imminent threats to ecosystem health.
2. To promote sustainable development, through the formulation of "green economy" proposals, the formulation and promotion of reforms for key sectors (e.g. energy) and the implementation of pilot applications.
3. To introduce the concept of ecological footprint in key policy agendas and to reduce it in households and societies, through activities that mobilize the public and cultivate more sustainable lifestyles and practices.
4. To effectively address the environmental threats posed by the financial crisis and the mounting pressures for environmental deregulation and marginalization of the sustainability agenda.
5. To contribute to the conservation of the Mediterranean Basin, through concerted action with Mediterranean WWF offices and other partners, especially in the field of the marine environment.

WWF Greece has a long history of on-the-ground conservation projects as it has implemented over 70 projects for the conservation of freshwater, marine and forest ecosystems of Greece over the last 20 years. As part of its overall work WWF Greece has an equally extensive forest conservation activities record since its establishment in 1990, with projects focusing on forest fire issues, such as prevention, post-fire rehabilitation and civil engagement.

Notes to Financial Statements

1. Organization

The "World Wild Fund for Nature - Greece" was founded in 1994 as a charitable organization for the conservation of natural heritage, under the Imperative Law 2039/39. Its founders are:

-World Wide Fund for Nature foundation, established in Gland, Switzerland

-Euthymios Papagiannis, architect, resident of Athens.

Mission of the Organization, according to the latest amendment of its mission statement (General Meeting of the Board of Directors at 12/7/2007), for which it is expected approval of the respective ministries are:

- Information, education and training on the need for conservation and protection of natural heritage. The design, production and distribution of appropriate printed, electronic, audiovisual or any other material form for educational and training purposes.
- The design and implementation of environmental and cultural events.
- Supporting and strengthening civil society, especially in relation to actions for environmental protection.
- Collaboration with state and non-government agencies, with individuals and enterprises at national and international level to ensure moral and financial support for nature conservation. Also promoting and enhancing each instrument (legal, financial, commercial) for the protection of nature.
- The collection, management and allocation of resources for nature conservation.
- The financing, design, management and support for nature protection activities and conservation programmes. These activities include research, development and implementation of long-term preservation methods and the protection of nature, the formulation of proposals, cross-border collaboration and scientists sharing their expertise with students and other stakeholders.
- The purchase, utilization and management of land and other tangible and intangible assets aiming to nature conservation and the preservation of endangered species.
- The establishment and participation in non-profit organizations pursuing objectives compatible with those of the Organization.
- The implementation of the mission of the Organization, as it is formed by the Board of Directors, in harmony with the purposes mentioned above.

2. Financial Statements of the Organization

The financial statements of the Organization have been prepared on the accrual basis of accounting, as stated by Basic Accounting Principles.

3. Basis of Accounting

3.1 Acknowledgment of historical cost

The financial statements have been prepared under the principle of historical cost. According to this principle, the financial data of the Organization are reflected in their carrying cost. Also, the financial statements have been prepared in accordance with the principle of the continuation of the Organization's activity. This means that the Organization's goal is to maintain an optimal capital structure by which it can achieve the financing of ongoing and new activities. In particular and always in the context of its strategy, the administration draws up a 5-year strategic business plan, which is adequately adjusted considering the continuous changes in the economic environment of the country, thereby ensuring the smooth continuation of all activities of the Organization.

3.2 Currency

All the transactions of the Organization are expressed in Euro and the attached financial statements are expressed in that currency.

3.3 Revenue Recognition

3.3.1 Income from ongoing projects

Income from grants is recognized in the income statement at the time of their collection or the formal commitment by the donor. The credit balances fee for use of third-sponsored programmes in progress, resulting in unspent revenue collected, displayed in a special escrow reserves, broken down by programmes, to be transferred to the following year. In the same reserve, is deducted and any other debit balances fee for use of the current subsidized programmes, which are due to additional costs incurred and will be covered by expected revenues in the next year.

3.3.2 Other Income

Income from other activities of the Organization (events, book sales, goods sales, rendered services) are recognized the moment these activities are carried out and not at the time of their collection.

3.4 Expenditure Recognition

The expenditures associated with the operation of the Organization and the implementation of actions, are recognized at the time of their incurrence regardless of the time of settlement.

3.5 Taxation

Given the non for profit activity of the Organization, it is not subject to income tax in accordance with relevant legislation, apart from the operations constituting commercial activities which are taxed at 20%.

3.6 Inventories

Inventories are valued at the lower value between the acquisition or production cost and the current market price or reproducing applicable at the balance sheet date. The acquisition cost is determined using the FIFO method of "First In - First Out".

3.7 Receivables

Receivables represent valid claims from customers and debtors for sales of goods or service charges incurred or accrued up to the reporting date of the financial statements. The requirements are assessed and if they are rendered as "doubtful collection", a respective provision is formed.

3.8 Fixed Assets

Fixed assets are valued at their acquisition cost. In the case of Land, related transfer costs are added to the acquisition price. Tangible fixed assets, except for Land & Buildings, are fully depreciated and amortized in the year of acquisition and these depreciation charges, respectively, the cost of programmes and the Organization's operating costs. Instead, the land and buildings acquired by donation in previous years 2006/07 and 2007/08 were valued at their objective value and buildings are depreciated at the rate provided by applicable law.

Report on the Financial Statements

We have audited the accompanying financial statements of the Public Welfare Foundation "WORLD WIDE FUND FOR NATURE W.W.F. - GREECE", which comprise the balance sheet as at 30 June 2016 and the statements of financial activity and cash flows for the year then ended.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the Greek Accounting Standards and for such internal controls as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's system of internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Qualified Opinion

As a result of our audit arose the following matters:

- 1) By deviation from the accounting principle about accrued expenses has not been performed provision for accrued payroll costs. At 30 June 2016 the total size of the unset provision amounts approximately to € 81.000 while the operating results for the current year

have been charged with payroll costs amounting approximately € 87.000, which concern the previous year. Consequently, the results for the year and the equity of the Foundation should have additionally been charged with approximately an amount of € 81.000.

- 2) By deviation from the accounting principles that are provided by the Greek Accounting Standards is not set up provision for staff retirement benefits. At 30 June 2016, the total size of the unset provision amounts to approximately € 254.000 and, as a consequence, the provisions for employee benefits are shown decreased by € 254.000 and the equity is shown equally in amount increased.
- 3) The tax returns of the Foundation for the years 1998/1999 to 2015/2016 have not been examined by the tax authorities as yet. Therefore, the tax results for these years have not been made final. The foundation has not proceeded to estimation of additional taxes and penalties that may be assessed at a future tax audit and has not made relevant provision in respect of this contingent liability. From our audit reasonable assurance has not been obtained in respect of the estimation of the amount of provision that may be required.

Qualified Opinion

In our opinion, except for the possible effects of the matter (3) and the effects of the matters (1) and (2) described in the Basis for Qualified Opinion paragraph, the accompanying financial statements present fairly, in all material respects, the financial position of the Public Welfare Foundation "WORLD WIDE FUND FOR NATURE W.W.F. - GREECE" as at 30 June 2016, and of its financial performance and its cash flows for the year then ended in accordance with the Greek Accounting Standards.

Report on Other Legal and Regulatory Requirements

We verified the consistency and the correspondence of the content of the Report of the Board of Directors with the accompanying financial statements, under the legal frame of the provisions of cod. L. 2190/1920.
